

THE NBC AWARD IN THE CATEGORY “VALUE AS A TRANSVERSAL PLATFORM”

2019-05-10

O Prémio “Value as a Transversal Plataforma” foi atribuído ao Conselho Português para o Cérebro, pela EBC Academy of National Brain Councils, no 5th NBC Academy Meeting, realizado em Dubrovnik, a 9-10 de maio de 2019.

THE NBC AWARD IN THE CATEGORY “VALUE AS A TRANSVERSAL PLATFORM”

NBCs bring together a wide range of stakeholders, such as scientific societies, clinicians, patient groups, industries and careers, within one platform. EBC and its members continue to raise awareness of the value of cooperation between these diverse actors for brain advocacy. What is more, promoting brain health is often an essential part of the mission of many NBCs, and one that EBC aims to support to the fullest. The award in the category “Value as a transversal platform” will recognize the NBC that clearly showcased the need to unite all actors that have a stake in neuroscience and mental health under one umbrella or underlined the need to accelerate brain research and enhance brain health.
